General Status

1. This is a Final Action on the Merits. Claims 1-19 are pending in the case.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear what is meant by “a securing device ... dissipating device”.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 19 is rejected under 35 U.S.C. 102(b, e) as being anticipated by Houdek (US 6,406,257).

For claim 19, Houdek, in figure 1-5, discloses a heat dissipating module 101 for being used in a system 100, comprising a heat-dissipating device or fan 202 having an outer frame 201, 212, 250, a terminal 210 electrically connected to the heat dissipating device, the terminal connector is mounted in a manner that it does not protrude out of the frame. When the heat-

dissipating device is inserted into a frame 112 of a system, the heat-dissipating device is electrically connected to the system through terminal.

Allowable Subject Matter

6. Claims 10-18 are allowed.
7. Claims 1-10 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Response to Arguments

8. Applicant's arguments, filed April 14, 2004, with respect to claims 11-18 have been fully considered and are persuasive.

The rejection of claims 1-18 on the ground of prior art has been withdrawn. The combination of claimed elements in claims 1 and 11 including heat-dissipating device, securing device, terminal electrically connected to the heat dissipating device and the securing device preventing the terminal from protruding out of the heat-dissipating device, all taken together are not found in the Houdek '257.

Claims 1-10 are rejected on the basis of 35 USC 112, second paragraph, as the amended claim 1 is vague and indefinite.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2839

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
